

TREKU

Hotel Astoria7****

ARCHITECT: JOAQUÍN ZUBIRIA
STYLIST: LUISA LÓPEZ TELLERÍA

C/ Sagrada Familia 1
San Sebastián

A newly-constructed hotel which is part of one of the city's emblematic buildings: the former theatres of the old Cine Astoria in San Sebastián.

A total of 102 rooms, each one devoted uniquely and exclusively to a different star, actor or director who has attended the International Film Festival of San Sebastián over the course of its fifty-seven year history. The property, dedicated professionally to the seventh art, pays tribute not only to the foundations on which it is constructed, but also to the longevity, prestige and cultural impact of this event.

Treku & Astoria

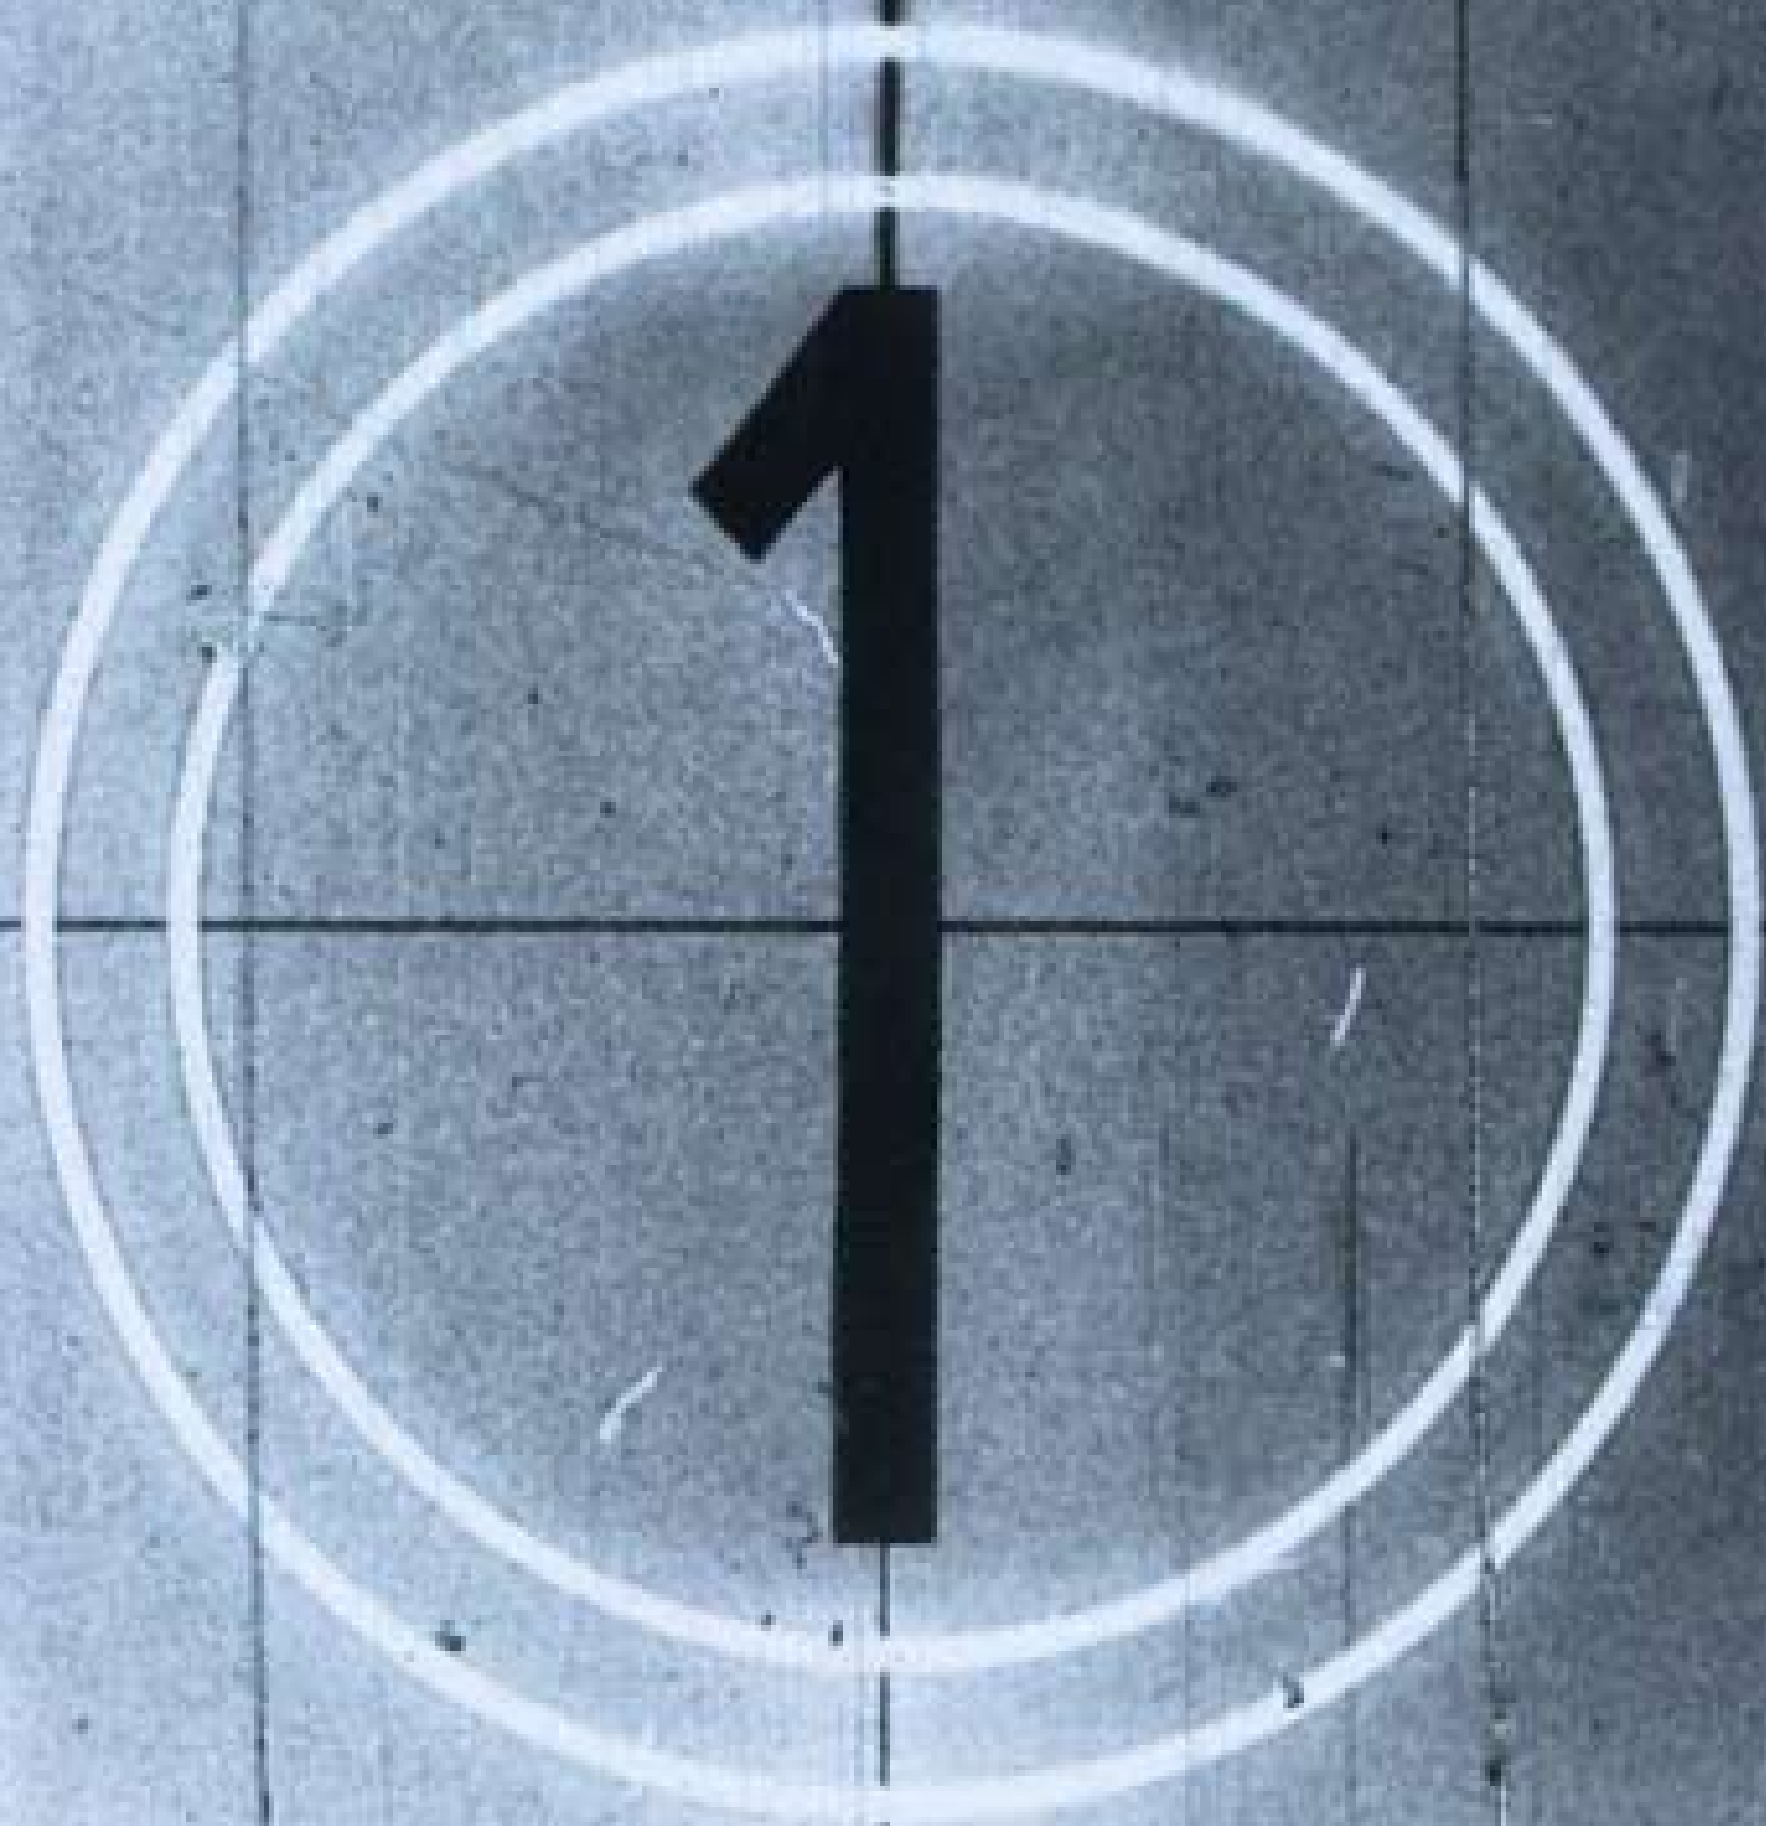

Furnishings for the rooms and common areas of Hotel Astoria 7

- The design of the product and the finishes required a special collaboration between the architect and the interior designer of the project.
- The product approach called for the design of tailor-made furniture, blending contemporary items with furniture inspired by the unforgettable 1950's.
- The production of unique items bearing the names of internationally-renowned designers.

Treku Contract

Tailor-made communal solutions

- Treku has a design team for the development of the project. A team which works according to the brief previously outlined by the customer.
- Flexibility: in its capacity to develop and manufacture bespoke products, tailor-made for each project.
- Uniqueness: in the creation, development and production of signature items of furniture.
- Production capacity: for its experience, exacting standards and the installations at its disposal, capable of taking on a significant workload.
